Festival De Cine at DPS, Bopal

Delhi Public School-Bopal conducted a Film making competition, 'Festival De Cine', on October 21 in the campus for students of classes IX to XII. This competition was organized by the Code Warriors club, the IT Enthusiasts who try to promote IT and technology by organizing competitions and workshops. The club has its own blog as well. In the competition, the students were required to prepare a short film or documentary on their school lives, regarding their best school memories and also the values that they have learnt from school.

The special guest was Margaret B. who is an active member of the graphic designing team for Kalorex. Each team,

with 2 - 5 members had been allotted time slots of 2 hours through 4 days, for shooting their videos within the school campus. All the teams actively participated by taking interviews of various students and teachers about their schooling experiences, recording classrooms and other lo-

cations on campus as well as through role-plays and enactments. Students had taken different themes like bullying, always having a positive attitude, memories cherished by an alumni, friendship, journey of a student from primary to senior secondary etc. Judging criteria included presentation,

content, innovation and creativity. All the films were greatly appreciated and brought back a wave of nostalgia for all the dignitaries. Margaret praised each film and shared that students are lucky to get such opportunities and resources that could not be accessed by students in the past.
