12 schools participated in the Green School Workshop by DPS, Bopal

Delhi Public School (DPS), Bopal organised a Green School Workshop (GSW) on their campus on Saturday to develop a road map towards 'Green schools' and initiate responsibility among young children towards the planet. A total of 12 leading schools of the city participated. The aim of the workshop was to implement green practices in and off the campus.

Two students and one teacher from each school came to attend the workshop.

Renowned speakers and environment experts were invited at the workshop to make it effective.

Clarence Maloney, sustainability coordinator at Kodai Kanal International School in Chennai said, "We can design various ways to create environmental awareness among people by holding walkathons, rallies etc. It is important that we transform school buildings into green buildings. Let us 'rethink, reduce, reuse, recycle and reject'.

Superintendent engineer of Gujarat Water Supply and Sewage Board, Deepak Ramchandani talked on water as a resource. He said, "Water is precious. Religion too talks to save water."

In-charge of Green School in DPS, Bopal, Livy Thomas said, "Adopting green practices is the need of the hour. The workshop showed us light on environmental problems and how to carry out activities on the same."
