

## **INTRODUCTION**

It is an established fact that India will bear the largest youngest population in the upcoming years. With an energetic youth heading the future of this nation, it is imperative that they be guided and directed towards promising career pathways.

The International Student Cell (ISC) established in academic year 2015- 16 is a novel initiative under the Career Counseling department of the school. This cell aims at bridging the gap between foreign universities and parents aspiring to seek admission of their children in them. The focus is to create awareness about international education and to ensure that students get good exposure.

The International Student Cell, DPS (Bopal) aims at:

- Organizing various seminars and workshops for awareness of different courses available at different universities across the globe.
- Attempting to equip students with the requisite information on the careers of their interests.
- Sharing information about the entrance examinations such as SAT, GRE, GMAT, IELTS, TOEFL, PTE, etc.
- Profiling of registered student
- Providing assistance and guidance in preparation of recommendation letters or resume for application process.

The ISC endeavours to provide all the possible and requisite support to registered students of Delhi Public School, Bopal to understand, gain awareness and subsequently, support their application process in their courses of interests overseas.
