

*“The sign of parenting is not the child’s behavior. The sign of truly great parenting is the parent’s behavior”*

An enriching parenting session on “ Effective Parenting of New Age Teens “ was conducted for grade 8 and 9 parents in A.V Room on 01 Sept, 2018 by Mr. Mohit Mangal. The session aimed at sharing the challenges for parents to deal with children born in digital age by parents born in non-digital age. So parents have to update themselves to deal their children who need continuous exposure to some other the activity or else they will be bored. Families are turning nuclear, results in no connection with the family members. They are bombarded with lot of information but no way to use this information in a concrete way.

The gap of childhood to adulthood is smashed that has results our children more mature physically and emotionally at an early age. Media has given lot of exposure to our children in terms of visuals information. They believe Google more than their parents but its instant and on the more of a device away.

We have to tamper this adolescent age group by understanding this age group here Mr. Mohit Mangal shared lots of strategies to deal with teenagers followed by an insightful activity to make the parents understand the actual communication between parent and child.

Session ended with lots of questions in terms of mentoring their children
