

The Tapestry Of

Threads Of Wisdom

PREFACE

This coffee table book is a thoughtfully curated chronicle of our institution's unwavering commitment to sustainability and green consciousness. For the past 30 years, Delhi Public School-Bopal, under the visionary leadership of the Kalorex Group, has steadily nurtured a culture where environmental responsibility is not an initiative but a way of life. From pioneering eco-friendly practices in the school's early years to implementing innovative, large-scale green programmes, the institution has consistently demonstrated how education and sustainability can evolve hand in hand.

Through evocative reflections and insightful perspectives, this volume traces the journey from The Dawn of a Vision – Prarambh to the creation of strong Green Roots, showcasing how thoughtful environmental stewardship has remained central to our ethos. Each chapter highlights purposeful initiatives—ranging from Waste to Worth practices and student-led stewardship under Les Gardiens de la Terre, to meaningful efforts in Giving Back to Mother Earth.

The book also captures our Global Footprints of Sustainability, extending green actions far beyond school boundaries and reflecting a wider ecological impact shaped by decades of dedicated effort. The concluding section, Kalorex: A Legacy of Sustainable Expansion, reaffirms a long-term vision rooted in mindful growth, innovation, and environmental harmony.

Elegant photography, reflective narratives, and carefully documented initiatives make this volume both inspiring and informative. More than a record, it is a celebration of a living green culture—one that honours our past, empowers our present, and ignites hope for a sustainable future.

MESSAGE

‘विद्या ददाति विनयं, विनयाद् याति पात्रताम्।’

Means Education gives humility; that leads to worthiness. Education is the soul of a nation’s progress. It does not merely prepare an individual for a livelihood, but shapes the mind, refines character, and awakens a sense of duty towards society and the nation. A truly educated citizen is one who blends knowledge with values, innovation with ethics, and ambition with compassion. **Hon’ble Prime Minister Shri Narendra Modi** asserted in one of his addresses that India’s education system is undergoing a transformative renaissance through initiatives such as the **National Education Policy (NEP) 2020, Atmanirbhar Bharat, Digital India** and **Skill India**. These initiatives emphasize experiential learning, critical thinking, Indian knowledge traditions and global competence, ensuring that our youth are rooted in culture while reaching for global excellence.

I am pleased to learn that **Pearl Jubilee of Delhi Public School (DPS) Bopal** is being organized. On this proud and joyous occasion, I extend my heartiest congratulations to all those who are contributing to the noble mission of principal, school management, teachers, parents and students. I am confident that with this harmonious blend of ancient wisdom and modern vision, our education system will continue to empower generations and lead India towards a self-reliant, enlightened and prosperous future.

MESSAGE

My heartfelt congratulations to Delhi Public School - Bopal, Ahmedabad, on the auspicious occasion of its Pearl Jubilee, marking 30 glorious years of dedicated service and educational excellence in Gujarat.

This remarkable milestone is a testament to the school's unwavering commitment to its mission: nurturing confident, compassionate, and future-ready students. For the past three decades, DPS-Bopal has played a pivotal role in shaping the academic landscape. I commend DPS-Bopal for its consistent contribution. The school has continually delivered excellence across diverse academic fields, resulting in City Toppers, National Achievers, and Global Rankers. This commitment is highly commendable.

The school's journey over the past 30 years is a great source of inspiration. May DPS-Bopal continue its legacy of distinction by providing excellent quality education and value-based learning for many generations to come.

My best wishes for the Jubilee celebrations and continued success.

MESSAGE

My heartiest congratulations to you and your team of dedicated educators on the momentous occasion of the 30th year of Delhi Public School Bopal, Ahmedabad. This remarkable milestone is a testament to the school's steadfast commitment to the motto of "Service Before Self" and to providing quality education to the children of Gujarat.

Over three enriching decades, the school has carved a distinctive identity by harmonising academic excellence with a progressive vision of holistic education. The consistent board results, robust intellectual culture in the classrooms, and the wide range of scholastic and co-scholastic opportunities have enabled students to grow into confident, competent, and compassionate global citizens.

As the school enters its fourth decade, special greetings are conveyed to the Management, staff, students and parents who have collectively shaped its journey. May the institution, strengthened by three decades of distinguished educational service, continue to set new benchmarks in academic excellence while remaining a steadfast champion of green practices and sustainability in the years to come.

MESSAGE

My heartfelt congratulations to the entire Delhi Public School- Bopal, Ahmedabad community on completing 30 years of excellence, innovation, and service in education.

Guided by the DPS motto — *Service Before Self* — the school has earned a distinguished reputation in Gujarat for its academic rigour, holistic development programmes, and strong value-based education. Over the years, it has continued to evolve with commitment, passion, and vision.

I am delighted to see initiatives that truly reflect progressive and future-ready schooling. The Green School Initiatives cultivate environmental responsibility and ensure a sustainable, resource-conscious campus. The Digital De-addiction Programme promotes balance, focus, and mindful technology use to safeguard student well-being. The 30 Acts of Kindness Campaign nurtures empathy, gratitude, and a spirit of service to society. Alongside, the school's inclusive and innovative learning practices prepare learners to excel in an ever-evolving global landscape.

These endeavours beautifully represent the school's mission of shaping young individuals who are academically sound, emotionally strong, socially aware, and deeply humane.

As DPS-Bopal celebrates this significant milestone, I applaud the faculty, staff, parents, and students for contributing to the remarkable journey of this institution. I am confident that the school will continue to achieve greater heights and inspire many more success stories in the years ahead.

My warmest wishes and blessings on this momentous occasion.

MESSAGE

As Delhi Public School–Bopal marks its **Pearl Jubilee**, I take immense pride in witnessing how the institution has grown with purpose, clarity, and an unwavering belief in the transformative role of education. Thirty years is not merely a milestone; it reflects a sustained journey shaped by thoughtful leadership, dedicated educators, and a community committed to excellence.

What distinguishes DPS–Bopal is its ascent as **the city's leading school**, guided by an educational philosophy that is relevant, responsible, and future-oriented. Its steadfast commitment to **sustainability**, reflected in its Green School initiatives, demonstrates a vision that honours both learning and stewardship.

I am equally encouraged by the school's forward-thinking programmes, including **Digital De-addiction**, which nurtures balance in a technology-driven world, and **Acts of Kindness**, which cultivates empathy and civic sensitivity—qualities essential for tomorrow's citizens.

As the school steps into its next chapter, I extend my sincere appreciation to the faculty, parents, and students. May the coming years continue to be defined by innovation, integrity, and an enduring commitment to holistic education.

My warmest wishes and blessings on this momentous occasion.

It gives me immense pride to extend my heartfelt felicitations to the entire Delhi Public School-Bopal, Ahmedabad family on completing 30 remarkable years of excellence. This milestone is not merely a celebration of time but a reflection of the school's unwavering dedication to nurturing young minds through values, vision, and vibrant learning experiences.

Over the past three decades, DPS-Bopal has evolved into an institution synonymous with academic rigour, creativity, and character-building. The school's progressive approach – balancing strong scholarly foundations with experiential learning, innovation, and life skills – has empowered students to grow thoughtful, confident, and responsible global citizens.

What distinguishes DPS-Bopal is its culture of continuous growth. From dynamic classrooms and technology-integrated pedagogy to its exemplary green initiatives and community outreach, the school has consistently demonstrated its commitment to shaping a sustainable and compassionate future. Its achievements stand as a testament to the collaborative spirit of its Management, dedicated educators, enthusiastic learners, and supportive parent community.

As we step into the next decade of the school's journey, I extend my warmest wishes to everyone who has contributed to its legacy. May DPS-Bopal continue to inspire excellence, lead with purpose, and uphold its tradition of shaping generations with integrity and vision.

Dr. Manjula Pooja Shroff
(MD & CEO Of Kalorex)

Congratulations to the entire Delhi Public School-Bopal, Ahmedabad family on completing 30 years of purposeful and progressive education. This milestone is not merely a celebration of time, but a reflection of a journey rooted in vision, values, and an unwavering commitment to responsible education.

What began as a dream has evolved into an institution that stands tall for its academic excellence, strong culture, and forward-looking mindset. Over these three decades, DPS-Bopal has consistently demonstrated that true education goes beyond classrooms – it lies in nurturing sensitive, aware, and responsible individuals.

I am especially proud of the school's deep-rooted commitment to green and sustainable practices, thoughtfully integrated into everyday learning. The conscious efforts of DPS-Bopal, in synergy with Kalorex, to promote environmental stewardship, sustainability, and social responsibility reflect an education that is relevant to the needs of our planet and future generations.

The strength of DPS-Bopal has always been its people – its leadership, educators, staff, students, parents, and alumni – each contributing with dedication and purpose. Their collective efforts have created a culture of collaboration, innovation, and ethical responsibility that continues to inspire institutions beyond its own campus.

As DPS-Bopal celebrates 30 years, I congratulate every member of the DPS family who has carried forward this legacy with sincerity and pride. The school's journey stands as a testimony to what can be achieved when vision is guided by values and action is driven by responsibility.

I wish DPS-Bopal continued growth, strength, and success as it charts new horizons – educating minds, shaping character, and nurturing a greener, more conscious world.

Warm regards,

"A school is a building that has four walls...with tomorrow inside." - Les Brown

Dear Readers,

The Pearl Jubilee Coffee Table Book celebrates 30 years of excellence, shaped by vision, perseverance, and community support. As a founder member at DPS- Bhopal I have witnessed its growth from humble beginnings to its present stature. Our journey stands as a testament to the vision of the leadership, the dedication of teachers, the trust of our parents, and the brilliance of students.

At DPS-Bhopal, we have always believed that true education goes beyond academic excellence—it nurtures values, responsibility, and a deep respect for the world we inhabit. As we celebrate three decades of excellence, the Green School Drive, initiated in 2009, stands as a proud reflection of this belief and our enduring commitment to environmental stewardship and sustainable living.

Effective leadership has guided us forward with wisdom, empathy, and innovation. Our leader Dr. Manjula Pooja Shroff, a futurist and transformational leader, has always fostered a culture of collaboration, creativity, and inclusivity.

The Green School Drive embodies our vision of empowering learners to understand the impact of their actions and to contribute positively to their communities and the larger global ecosystem. It reinforces the idea that sustainability is not an isolated effort, but a shared responsibility and a way of life.

We reaffirm our commitment to nurturing individuals grounded with values, driven by innovation, and guided by holistic growth.

A legacy of 30 years, woven with threads of excellence, shaped by vision, and nurtured by dedication. -Here's to the journey, milestones, and dreams that drive us forward.

May this book honour our past and illuminate the path ahead.

"Sustainability is not a choice anymore; it is our responsibility to the world we borrow from our children."

Dear Readers,

The Pearl Jubilee Coffee Table Book is a celebration of Delhi Public School–Bopal's steadfast commitment to sustainability over the last thirty years. It brings together our collective journey of nurturing environmentally conscious citizens—through our practices, our partnerships and the everyday actions of our students, teachers, staff, and parents.

As we reflect on these three remarkable decades, this book stands as a living record of how a simple belief—that every small step matters—grew into a culture deeply rooted in care for the planet. From green infrastructure and conservation efforts to student-led campaigns, community collaborations and innovative classroom practices, each page captures our evolving vision toward a greener and more responsible future.

While this book honours our past initiatives, it is equally a reminder that sustainability is a continuous journey. It inspires us to keep questioning, keep improving, and keep empowering young minds to lead with awareness, compassion, and responsibility. Our commitment does not end here; it grows stronger with every new idea and every young environmental steward who walks through our corridors.

May this compilation not only evoke pride but also encourage future generations to dream bigger, act responsibly, and contribute meaningfully to a sustainable world. Together, let us carry forward the DPS Bopal spirit—with gratitude for what we have achieved, determination for what we continue to build, and hope for the world we are shaping.

Inception of a Legacy: First Footprints on Sacred Ground

The sacred Bhoomi Poojan of Delhi Public School - Bopal unfolded as a resplendent symphony of reverence and vision, where each solemn chant and fragrant offering murmured of hope, growth, and infinite promise. Distinguished luminaries, poised in gracious anticipation, stood as steadfast sentinels of commitment and inspiration, their presence interlacing aspiration into the evolving tapestry of the institution's legacy. In a moment indelibly etched in history, the venerable statesman, Shri Lal Krishna Advani, graced the foundation stone ceremony—his visionary presence heralding the genesis of an educational sanctuary destined to illuminate young minds, shape futures, and nurture generations with enduring brilliance.

TERI-BEACON Workshop empowered students to present innovative energy-conservation projects, earning accolades for their impactful contributions

Save Sparrow

Save House Sparrow Drive inspired students to design shoebox nests, reflecting empathy for biodiversity and a commitment to conservation.

RAIN WATER HARVESTING

The rainwater harvesting system at Delhi Public School-Bopal collects rainwater from the rooftop through pipes and filters it before storing it in a tank. This setup helps conserve water.

YALI GREEN GUARDIAN

Yali Green Guardian: Yali, the school mascot inspires students to protect the planet through simple, meaningful eco-actions.

Planting Hope, Growing Future

Our school nurtures eco-conscious learners through simple green practices such as plant gifting, student-led plantations, and daily sustainability habits, instilling responsibility and a love for nature in every child. Presenting saplings to guests serves as our warm welcome gesture and reflects our commitment to a greener future, ensuring that each student grows as a responsible guardian of the planet.

YALI ACTIVITY - REDUCTION BOOTH

As a part of Yali-The Green Guardian activity, the students of Delhi Public School-Bopal, conducted an awareness activity on 'CO2 emissions' under the Title-Reduction Booth.

The goal of the activity was to spread awareness about the Global issues of carbon emissions and ways to find out the solutions for that.

YALI ACTIVITY - WASTE MANAGEMENT

Students of DPS-Bopal conducted a 'Measuring Biodegradability' activity under Yali-The Green Guardian. They collected and presented data on material degradation using pie charts, made posters and slogans, and promoted eco-friendly alternatives. The activity encouraged teamwork, creativity, and awareness of waste management and the 5Rs.

Waste to Worth

A Greener Tomorrow begins here

E-Waste Collection Drive - Instilling eco-conscious habits in young minds, an initiative aimed to create a sustainable culture within the school and the community.

Eco Friendly Creations

Encouraging young minds to repurpose everyday waste into useful or decorative items, the initiative fostered creativity, innovation and a sense of environmental responsibility.

Waste Management Action Plan

In response to the growing concern over waste management issues, the students of DPS- Bopal through collaborative brainstorming generated ideas for improving waste management practices both at school and within the community. They formulated a well thought detailed action plan which included specific strategies for waste reduction, recycling initiatives, and methods for promoting responsible waste disposal habits. By being responsible and accountable, students aimed to create a more sustainable future for our community.

Energy Conservation Campaign

An energy conservation campaign was conducted in order to encourage saving electricity and water on campus. The Green Warriors placed reminder stickers near taps and washrooms and encouraged students to switch off projectors and computers when not in use. The initiative inspired responsible habits, reduced wastage, and supported environmental protection across the school.

Empowering the Green Leaders –

Les Gardiens de la Terre

Dr. Manjula Pooja Shroff (MD & CEO of Kalorex) continues to inspire and empower young learners through her visionary green initiatives and her steadfast commitment to environmental stewardship. Her thoughtful engagement with students not only stimulates creativity and nurtures budding authors but also cultivates responsible, environmentally conscious individuals equipped to lead the future with clarity of purpose and a strong sense of social and ecological responsibility.

An assembly based on **Green School** helps in building a school culture that respects nature, saves resources, and promotes sustainable living.

The Green School Conference

The Green School Conference at DPS-Bopal was inaugurated by Smt. Varshaben Doshi, MLA Surendranagar, and featured eminent speakers Mr. Hiten Vasant, Dr. A. P. Singh, Ms. Mita Nangia Goswami, Dr. Manju Ranjan Rawat, Ms. Deepa Sathiam, Dr. Mamta Pandya, Mr. Sandip Sethi, and Dr. Bernadette Anand, who collectively emphasized environmental awareness and sustainable education.

Wall Painting @ DPS-Bopal with 'Sustainable Development Goals'

Wall painting activity by students illustrating the 17 Sustainable Development Goals, promoting awareness, responsibility, and commitment toward building a sustainable, equitable, and peaceful future.

“**Pasti Se Pustak**” is one of DPS-Bopal’s signature green and social initiatives—an annual drive that turns recyclable paper into opportunities for learning. Since 2010, the school community has collected old newspapers, books, and magazines, recycling them into handmade paper that is creatively used across various events on campus.

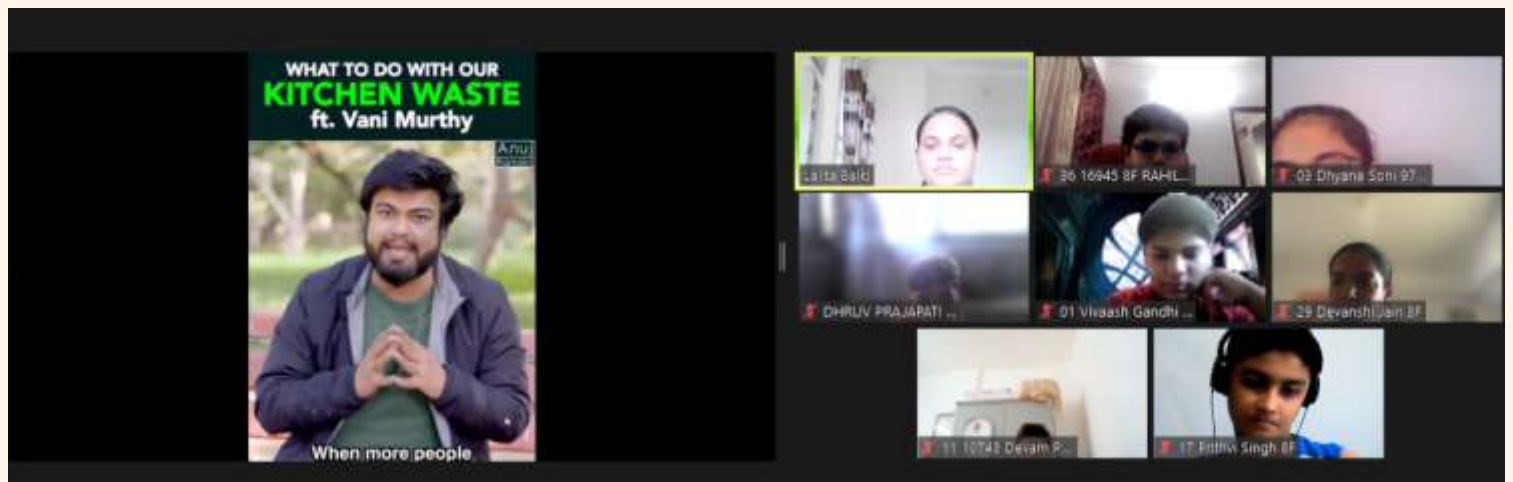

‘Exhibition of Eco-friendly Creations’

Students as conservators exhibited their sense of sustainable practices by displaying different articles made from recycled paper like envelopes, folders, vases, artefacts made from waste materials, wall-hangings and much more.

COMPOST PIT

Nature's Way: Reuse & Renew

Students explored sustainable living in a virtual SEWA compost pit session, learning how to recycle organic waste into healthy compost. It was a truly enriching experience.

A group of school children, both boys and girls, are gathered in a garden. They are wearing school uniforms consisting of green short-sleeved shirts and plaid skirts or shorts. Many of the children are holding red and blue watering cans. They appear to be engaged in a learning activity, looking at various plants growing in pots on the ground. The background shows a garden area with more plants and some outdoor furniture like a table and chairs. The overall scene is bright and educational.

Giving Back to Mother Earth

Green Ahmedabad Campaign engaged students in plantation drives, skits, and quizzes, nurturing awareness and collective environmental responsibility.

First Footprint Towards Green School marked DPS Bopal's launch of Green Wednesdays and the mascot Yali Goes Green, igniting a campus-wide ethos of sustainability.

Solar Panel

As part of our longstanding green practices, DPS-Bopal installed solar panels on campus in 2019 to harness clean energy and reduce our carbon footprint. This initiative reflects our commitment to sustainable infrastructure and responsible resource use.

Gratitude to the Earth: Prakruti Vandana

Through Prakruti Vandana, students reflected on nature's role in sustaining life. The practice encouraged reverence, care and responsibility for the environment.

Happiness Week - Finding happiness in nurturing nature - true happiness in growing plants.

Plantation Drive - Venturing into endeavours contributing to the protection of a priceless resource - Our Earth.

A Green Gift of Gratitude.

A harmonious blend of gratitude and green consciousness unfolds as educators and students come together—exchanging symbolic gifts, advocating sustainability and pledging to protect their city and river—reflecting DPS-Bopal's enduring commitment to environmental stewardship and collective responsibility.

Engaging students in environmental stewardship
and fostering a sense of responsibility towards
climate action.

Earth Hour - a powerful reminder that protecting the planet begins with awareness and action.

Global Footprints of Sustainability

Horizons of Learning - From Classrooms to the World

DPS-Bopal won the Green Cup Recycle Video Challenge, organized by Green School Alliance, USA.

Global Leadership Journey witnessed thirty-seven DPS Bopal students presenting innovative eco-projects, forging global collaborations, and honing sustainable leadership.

From global learning experiences to thought-provoking classroom interactions, students embrace knowledge with curiosity and confidence—exploring new horizons, nurturing scientific inquiry, and embodying DPS-Bopal's spirit of lifelong learning beyond boundaries.

Junior school students of DPS-Bopal and Emyrean School, Navi Mumbai, collaborated on the role of quality education in promoting climate action for a sustainable future. The program sensitized students to the risks of global warming and the importance of reducing carbon footprints.

Two Nations, One Green Mission

Student Exchange Program @ Zambia

Across continents, young eco-ambassadors united as Green Warriors, weaving a global tapestry of conservation and shared responsibility for our planet.

A group of students are kneeling on a paved area, painting a large mural. The mural features the words 'GREEN MATTERS' in large, bold, white letters. To the right of the text, there are several green leaf shapes painted on the pavement. The students are using paintbrushes and small containers of paint. The scene is set outdoors, and the overall atmosphere is one of active participation in a community project.

Green Actions Beyond School Walls

The students explored the joys of herb gardening, discovering how sowing seeds nurtures both plants and respect for nature.

Green Today, Alive Tomorrow

Students showcased their creativity in poems, comics, and slogans to highlight the significance of conserving natural resources and living sustainably.

Crafting a Greener Tomorrow Students made paper bags from recycled materials, guided by the Green Warriors, and distributed them locally to promote eco-conscious habits.

DELHI PUBLIC SCHOOL- BOPAL, AHMEDABAD
SCIENCE MINDFULNESS ACTIVITY
GRADE VI (2021-22)

1. As you begin, walk at a natural pace:

Place your hands wherever comfortable: on your belly, behind your back, or at your sides. Whatever else captures your attention, come back to the sensation of walking.

2. Now for a few minutes, expand your attention to sound:

Pay attention to sounds without labeling or naming, or getting caught up in whether you find them pleasant or unpleasant.

3. Shift your awareness to your sense of smell:

Again, simply notice. Don't push or force yourself to feel anything at all, just bring attention to the sense of smell, whatever you discover.

4. Now, move to vision:

Colors and objects and whatever else you see. Patiently coming back each time something grabs your attention or even if something needs addressing, like avoiding an obstacle. Staying natural, not overly rigid, not daydreaming and drifting, but with sustained awareness. Now try to notice as many birds, bugs, creepy-crawlies, and any other animals as they can. Anything that walks, crawls, swims, or flies is of interest. Try to observe everything around you.

Nature in Every Step

Students embraced mindful walking, fully aware of the sounds, sights, and textures around them, observing living and non-living components of nature closely. The walk encouraged reflection, mindfulness, and environmental awareness.

Beyond Thirty

THE JOURNEY AHEAD

As we look beyond three decades of purpose-driven growth, sustainability at DPS-Bopal is poised to deepen, evolve, and inspire in ways yet unimagined. What began as mindful practices will transform into instinctive living where innovation and responsibility walk hand in hand. The future will see classrooms shaping climate-conscious leaders, campuses becoming living laboratories of green innovation and students emerging as global custodians

 **Climate-Conscious Leaders** 

 **Global Custodians of the Planet**

Sustainability will no longer be a chapter we document, but a legacy we actively design. The upcoming years will be rooted in compassion, *guided by knowledge*, and strengthened by collective action. As horizons expand, our commitment remains unwavering towards nature and we shall continue to *care deeply*, and ensure a thriving world for generations to come.

KALOREX

A Legacy of Sustainable Expansion

For decades, Kalorex has stood not just as an educational institution but as a visionary organisation committed to nurturing both minds and the environment. Its legacy of sustainable development is rooted in the belief that true education goes beyond classrooms—it lives in daily actions, mindful habits, and the responsibility we share toward our planet.

From conserving water and reducing electricity usage to championing paperless practices, Kalorex has consistently woven eco-consciousness into every layer of its ecosystem. Initiatives such as Think Before You Print, No-Print Week, and various resource-saving campaigns have inspired thousands of students, educators, and families to adopt greener ways of living.

Tree plantation drives, waste-management efforts, and campus-based sustainability projects are not mere events at Kalorex—they are traditions that echo the institution's long-standing commitment to environmental stewardship. Each sapling planted, each resource saved, and each mindful action reflects a culture that respects nature and invests in the future.

Kalorex's journey is a testament to how education and sustainability can thrive together. With every passing year, this legacy grows stronger—shaping responsible citizens, nurturing green campuses, and leading the way toward a cleaner, brighter, and more sustainable tomorrow.

Yali The Green Guardian

Yali in a new avatar—The Green Guardian. No longer just a figure of legend, he rises as a superhero for the planet, committed to protecting Earth from the threats of climate change and environmental degradation. Cloaked in a green cape, Yali is both a protector and a teacher—an inspiration for generations to live by the pledge: “Love Nature, Live with Nature.”

The Pledge

I pledge to protect Earth day and night,
To keep it clean and shining bright.
I promise to use water with care,
And breathe fresh air, everywhere.
I'll reduce, reuse, and recycle too,
For the planet, me, and all of you.
I am a Green Guardian, strong and true,
Saving the Earth, the best I can do.

YALI HO!

The Green Guardian Force (GGF)

Recognizing that true change begins with the young, Yali founded The Green Guardian Force (GGF)—a dynamic collective of children, parents, and educators. Together, they carry forward his mission of sustainability, each becoming a beacon of hope for the planet. New avatar. The Force operates across five tenets, each representing a vital pillar of environmental stewardship:

The Team Pledge of Green Guardian Force

YALL'S

BLUE ISLAND

SAVE WATER, SAVE THE PLANET

Save Water, Save the Planet

At all Kalorex Institutions: In Blue Island, the focus is on promoting water conservation. The young guardians are engaged in learning and disseminating knowledge about effective and innovative ways to reduce water usage. This vertical aims to instill a sense of responsibility towards preserving our most precious resource, encouraging mindful consumption and conservation practices.

YALL'S

GREEN GARDEN

PLANT TREES FOR A GREENER FUTURE

Plant Trees for a Greener Future

At all Kalorex Institutions Green Garden is dedicated to enhancing the green cover of our planet. Members are involved in activities that reduce tree cutting and encourage tree planting. This initiative emphasizes the importance of trees in maintaining ecological balance, fostering a greener and more sustainable planet.

YALI'S

ENERGY ⚡ STATION

SWITCH OFF APPLIANCES,
SWITCH ON SMARTNESS

Switch off Appliances, Switch on Smartness

At all Kalorex Institutions At Energy Station, the emphasis is on conserving energy to reduce carbon footprints. This includes educating and motivating the members to switch from non-renewable to renewable, cleaner energy sources. The goal is cultivating awareness and action towards smarter energy consumption and sustainable living.

YALL'S

RECYCLE ♻️ YARD

RECYCLE, REUSE, REPEAT

Recycle, Reuse, Repeat

At all Kalorex Institutions: Recycle Yard focuses on promoting the practice of recycling and using recycled products. This vertical aims to create an understanding of the significance of recycling in sustaining the finite resources of our planet. It encourages a cycle of reuse that supports environmental preservation.

YALI'S

REDUCTION  BOOTH

≡ REDUCE POLLUTION, REDUCE WASTE ≡

Reduce Pollution, Reduce Waste

At all Kalorex Institutions: Focused on reducing pollution and waste, the Reduction Booth emphasizes repurposing materials to minimize environmental impact. It educates members on sustainable consumption and responsible waste management, fostering a culture of resourcefulness and environmental consciousness.

The Green Campus Vision

In 2014, Calorx deepened its commitment to creating clean, healthy, and inspiring learning environments by introducing an India-focused Green Campus system. This initiative offered schools a simple yet thoughtful method to review their environmental practices, encouraging them to adopt sustainable behaviours that aligned with local realities and educational needs.

The hands are positioned around the paper ball, with fingers slightly curled as if supporting it. The background is a solid, light green color. The text "Corporate Awareness" is overlaid in the center of the image in a white, sans-serif font.

Corporate
Awareness

In the past one year, the Kalorex Group has demonstrated remarkable dedication to environmental stewardship through a series of purposeful green initiatives. During this period, the group has closely monitored water usage, encouraged the practice of switching off electricity when not in use, and strengthened a culture of mindful consumption through campaigns such as Save Paper, Think Before You Print, and the impactful No-Print Week. Gifting a sapling on ones birthday is like offering a living blessing – a tender symbol of love, warmth, and hope for the Earth. These initiatives highlight the organisation’s steady commitment to sustainability.

In addition, the group has undertaken tree plantation drives that have added both greenery and inspiration across its campuses. Through these collective efforts, the Kalorex community—students, staff, and families—has contributed meaningfully to building a cleaner, greener, and more responsible tomorrow.

Birthday Present

The hands are positioned in the lower half of the frame, with the fingers gently supporting the base of the plant. The seedling has several bright green leaves and a thin stem. The soil is dark and textured. The background is a solid green color, which is part of a semi-transparent overlay that covers the entire image. The text is centered over the image.

The Green Garden Initiative

Plantation Drive

The Kalorex Group proudly launched the Green Garden Initiative on, 14th August 2024, turning the celebration of Independence Day into a powerful pledge for a greener future as **students, staff, and parents** from every Kalorex project came together with heart and purpose. It adopted a plot near Gopi Annakshetra, Nava Vadaj, Ahmedabad.

With each sapling planted, our community reaffirmed its commitment to sustainability, responsibility, and hope. What began as an act of planting soon grew into a symbol of unity – reminding us that when we nurture nature, we also nurture the next generation.

The Kalorex Group has planted 55,000 saplings through its year-long green drive, nurturing a powerful movement of environmental responsibility and collective action.
