Time stops for no one

It feels so scary getting old
While the 6 year me yearns to grow,
Being in the class I once thought was far, far away
But time never listened when we begged it to go slow.
Picking courses and colleges
And cities to live in,
Wanting to reclaim the carefree days
The thought prickling my skin.
Can I ever go back to the happy little girl
Who once dreamt wide,
Who believed the world was endless
With magic on every side?

Community initiative promotes local entrepreneurship

Delhi Public School-Bopal, Ahmedabad, organised DPS-Bopal Community Connect 2026 on October 9 and 10, bringing together meaningful initiatives that promoted community engagement, preventive healthcare, social responsibility and local entrepreneurship. The programme reflected the school's commitment to extending learning beyond the classroom and nurturing responsible, socially conscious citizens.

A key highlight was Vocal for Local 5.0 – From Local Endeavours to Lasting Impact, inspired by Prime Minister Narendra Modi's vision of promoting indigenous products, empowering local entrepreneurs and strengthening the spirit of Aatmanirbhar Bharat. The event was graced by Amit Thaker, MLA, Vejalpur, Ahmedabad, in the presence of principal Sabina Sawhney.

Featuring around 45 homegrown brands and social enterprises, the initiative showcased a diverse range of products, including traditional delicacies, millet-based snacks, handcrafted jewellery, sustainable accessories, home décor, herbal products and upcycled creations.

The enthusiastic participation of students, parents, staff members and visitors provided local entrepreneurs with a valuable platform to showcase their products and connect with the wider community.

Complementing the entrepreneurial initiative, the Blood Donation and Blood Investigation Camp, organised in association with Prathama Blood Centre and Thyrocare Laboratory, highlighted the importance of voluntary blood donation, preventive healthcare and regular health monitoring. The initiative encouraged community members to contribute to a life-saving cause while fostering greater awareness of personal health and well-being.

Through these initiatives, DPS-Bopal Community Connect 2026 served as a meaningful platform for promoting indigenous enterprises, encouraging voluntary service and strengthening community partnerships. The programme reaffirmed the school's commitment to holistic education and its guiding motto, "Service Before Self", inspiring individuals to contribute positively to society through awareness, compassion and responsible action.
